INTERLEAGUER

VOLUME 81, NUMBER 28 • APRIL 4, 2022

COLUMN ONE

It was an amazing day at Angel Stadium in Anaheim. The Pac 12 Bruins hit in the batting cage, awards were presented to different people (Walt Allen pictured) who have helped Kare over the past few years, and we even got to watch Mike Trout take batting practice (when his little boy wasn't getting in the way, that is).

Easter Facts and Trivia

- 1) Why is Easter celebrated on different Sundays every year? Easter is tied into the Jewish holiday of Passover which celebrates God delivering the Jews from Egypt in the days of Moses. Christ was celebrating the Passover with his disciples at the Last Supper before he was crucified and resurrected three days later. Passover is celebrated based on the lunar calendar and changes every year depending on when a full moon appears. That means Easter also occurs on different Sundays depending on the full moon.
- 2) How many Cadbury crème eggs are produced each year? The answer may surprise you...500 million. That's about 1.5 million every day all year (taking off a few days for holidays).
- 3) When did folks start painting Easter eggs? The tradition actually began in Ukraine when children would decorate "pysanka" eggs. Ukrainian immigrants later spread the art to the United States.
- 4) What is the Nazareth Inscription? A marble tablet was found that was dated from around the time of Christ's resurrection. Etched in the stone was an edict from an unnamed Caesar forbidding grave robbing with death as the punishment. That's interesting...
- 5) Where is the world's largest Easter egg? Weighing in at a massive 5000 pounds, the "Vegreville Pysanka" located in Alberta, Canada is the largest. It is made entirely of aluminum and is over 30 feet tall.
- 6) How many Jews have converted to Christianity? Although Jesus and his disciples were all Jewish, Christianity took off in the Gentile communities much faster. Today there are approximately 250,000 Jews in the United States that practice the Christian faith.
